Please turn over for more information

Allstore Solutions are pleased to bring you the new Palid.

This new pallet lid really can transform a warehouse with remarkable savings on packaging waste and labour.

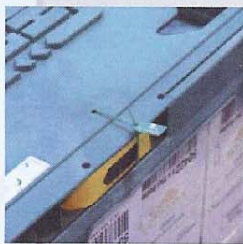

From this

To this

Manufactured from injection moulded polypropylene, the Palid is 100% recyclable and hygienic. It is also very environmentally friendly as it can reduce waste, such as stretch wrap and banding, to zero.

Supplied with either 2 or 4 fully retractable straps with integrated release / tensioning mechanism, the Palid offers unrivalled load restraint on even loads. Tamper evident seals are also an option.

Pallets become stackable

Increased vehicle fill
